

Karger Journals Collection 2027

The **Karger Journals Collection** is designed to meet the diverse needs and requirements of institutional customers ranging from academic and hospital libraries to pharmaceutical and other research centers and industries.

Backed by a 132-year tradition of medical publishing, the collection comprises 56 journals covering all disciplines of human medicine in basic and clinical research areas.

Many titles are published in association with distinguished societies like the World Federation for Psychotherapy, the International Society for Immunonutrition, and the International Fetal Medicine and Surgery Society.

From 2027, the Karger Journals Collection is available from Oxford University Press.
